Uso de recursos auténticos y tecnología en la enseñanza del inglés.

Evaluación integrada de las habilidades lingüísticas.

Hi dear colleagues! How are you this week? Welcome to Module 3!

In this opportunity we will deepen our knowledge and understanding of macro skills and how to foster them in class.

Integration of skills refers to the interaction of the five main language abilities all together during formal instruction. Claire Ross and Skye Butchard offer you a simple set of guidelines and concrete examples to help you organize a well balanced class plan in “**Integrating Skills**” and “**How to make an Integrated Skills Lesson Plan**”.

It is key to focus on the importance of integrating abilities in the process of teaching and learning a foreign language by exploring strategies and activities to achieve this goal.

Firstly, it is necessary to state that all the reading material for **Module 2** will be integrated and brought into action in this module. So, we will ask you to go back to those sets of bibliography and webgraphy for theoretical background and ideas to apply this week.

Secondly, we will ask you to participate in each of the **Forums of Module 2 -parts 1 and 2-** (**Part 1:** DISCUSSION FORUM 1 “Macroskills in my class”, DISCUSSION FORUM 2 “Listening and Speaking, from theory to practice”, **Part 2:** Discussion Forum “Reading, Writing and Viewing: essential macro skills in learning”).

How? You must read your colleagues’ posts and register a response to, at least, one of them: it could be a reflective comment, a related example, a question or even just a phrase or message of appreciation.

Finally, we have arrived at the last part of this module. Well done!
Now it’s time to do the **weekly assignment**.

Activity:

Analyze the Class plan and answer the questions. Finally, share your answers in the **Weekly Assignment Forum**.

REMEMBER! This [TAREA](#) has a deadline: **Friday, 10th November. 11:59 pm**
